An artist went to a beautiful part of the country for a holiday, and stayed with a farmer. Everyday he went out with his paints and his brushes and painted from morning to evening, and then when it got dark, he went back to the farm and had a good dinner before going to bed. At the end of his holiday, he wanted to pay the farmer, but the farmer said: "No, I don't want money, but give me one of your pictures. What is money? In a week it will all be finished, but your painting will still be here". The artist was very pleased and thanked the farmer for saying such kind things about the paintings. The farmer smile and answered: "It is not that. I have a son in London. He wants to become an artist. Hummingbirds are amazing little birds. They are the smallest of all birds and weigh less than even a penny. The Bee Hummingbird, at barely more than two inches long, is the smallest bird in the world!

Unlike most birds, hummingbirds have iridescent feathers. Iridescent feathers glitter and shine in the sun. Hummingbirds are often dazzling combinations of greens and reds or greens and blues. Others are violet, orange, golden, silver or other combinations only Mother Nature could dream up. All hummingbirds have long bills to insert into flowers. Some hummingbirds have special bills to fit in specific flowers. Hummingbirds are the only birds that can fly backwards.

Hummingbirds are also unique among bird species in that they drink nectar from flowers. You can attract hummingbirds to your yard with special feeders that are filled with sugar water. These feeders are usually bright red in color because hummingbirds are attracted to red.
